The Rebirth and Transcendent System

The Rebirth (or Transcendent) system in Ragnarok Online functions like a "New Game+" for your character. It allows you to reset a max-level character back to level 1, but with significantly stronger baseline stats and access to a completely new tier of powerful skills.

Prerequisites

- **Level Cap:** Base Level 99 and Job Level 50.
- **Zero Weight:** Your inventory must be completely empty, meaning your carry weight must be exactly 0. You cannot have anything equipped, and even 0-weight items or rented mounts must be removed.
- **Zeny Fee:** You must pay a fee of 1,285,000 Zeny, and after paying, your character must have exactly 0 Zeny remaining in their wallet.

The Process

- **Travel to Yuno:** Head to the Sage's Castle located in the northwest corner of Yuno.
- **Speak to Metheus Sylphe:** Pay the fee or complete his side-quest.
- **The Book of Ymir:** Proceed deeper into the castle and interact with the Book of Ymir.
- **Valhalla:** You are teleported to Valhalla, where speaking to the Valkyrie officially resets your character back to a Base Level 1 / Job Level 1 High Novice.

The Benefits of Transcending

- **More Stat Points:** You start with 100 extra stat points to allocate at level 1, and you gain more status points overall as you level back to 99.
- **30% HP / SP Boost:** Transcendent characters naturally have 30% more maximum Health and Spell Points than their non-rebirth counterparts.
- **Exclusive Skills:** Upon reaching your Transcendent 2nd class, you unlock game-changing skills that standard classes do not have.
- **The Path to 3rd Classes:** A Transcendent character advancing to a 3rd class retains their extra stats, increased HP/SP pools, and Transcendent skills.
