A Compendium of Legendary MVPs

In the vast and ancient world of Midgard, MVPs (Most Valuable Players) are not mere monsters; they are legendary, immensely powerful beings of varied origins—ranging from primordial deities and restless spirits to rogue technological marvels. Each bears a heavy bounty on their head. From the cursed lineage of the Heimdall family to the exalted ranks of Novum Crucis, adventurers have spent their entire lives tracking these titans across shattered dimensions, risking everything to obtain their mythical loot. To defeat one is to claim absolute glory, etching one's name into the annals of legend forever.
